

# FORMER STUDENTS AND THEIR POST-16 DESTINATIONS

## Triple Distinction Star in BTEC Level 3 Sport

*When I came out of school I knew I wanted to study sport but I didn't want to study other A Levels alongside it, so the BTEC was perfect for me as it meant I could solely focus on sport. The style of teaching also really suited me with there being a lot more practical parts to the class, as well as time in the classroom.*

I'm really pleased with my result, and now I'm heading to the University of South Wales to study a Foundation Degree in Football Coaching and Development. I've really enjoyed my time at Ludlow – I picked the College because I knew it had smaller class sizes which means you get more time for direct interaction with the tutors, and it was also local to me as well.

For me I enjoyed the wide variety of the BTEC – you learn across a wide variety of units, and get to take part in a lot of different sports, it's not just fitness or football. If you like the idea of being a bit more hands-on and not as theoretical, I'd highly recommend the BTEC course, and the College too.”
