

Nurturing Resilience: The parable of the wise and foolish builders

- In life we are given choices: we can take the quickest and easiest route (that of the foolish builder), but the results will not last. We can approach all situations with hard work, determination and positivity (that of the wise builder) and this will allow us to reach our aspirations.
- "The rain came down, the streams rose, and the winds blew and beat against that house; yet it did not fall, because it had its foundation on the rock." Matthew 7:25
- We nurture a school community that remains focused, is prepared for the challenges life may bring, and can adapt to a change in plans. In the face of obstacles, we remain steadfast and faithful.
